SHASTRA JUNIOR COLLEGE

BiPC

CURRICULUM GUIDE / SAMPLE EDITION

SAMPLE CONTENT

Illustrative topics only. Confirm and replace with the official college curriculum.

Botany

Study plant diversity, structure, function, and heredity.

- Plant diversity
- Cell structure and division
- Plant anatomy
- Plant physiology
- Principles of genetics
- Ecology and environment

Zoology

Build a foundation in animal biology and human systems.

- Animal diversity
- Structural organisation
- Human physiology
- Reproduction
- Genetics and evolution
- Health and disease

Physics

Practice core principles through diagrams and problem solving.

- Units and measurement
- Motion and forces
- Work and energy
- Electricity
- Optics
- Modern physics

Chemistry

Review essential chemical ideas and their applications.

- Atomic structure
- Chemical bonding
- Stoichiometry
- States of matter
- Introductory organic chemistry
- Environmental chemistry
